

# Z-STYLE ATHLETIC LOCKER

Z-style lockers feature two offset compartments per column with angled shelves, creating separate zones for clean gear and dirty equipment – a smart configuration for athletic programs.

## SPECIFICATIONS

|                    |                                          |                    |                                         |
